Magnetic Tile Boards  
for Tutors using the

 **Barton**  
Reading & Spelling System®

# Stack and Go

## Magnetic Tile Boards

The Stack and Go system is ideal for professional tutors using the Barton Reading & Spelling System with multiple students in Level 4 and above. At that point, tile

management becomes a significant issue. Stack and Go provides a fast

way to set up, take down, store and transport the tiles. It can also be helpful with one student and with earlier levels.

"I was so impressed with the sample of the Stack and Go board you sent me that enclosed is my check to buy a complete ProKit. I would like to use them with my own student, who is in Level 9. It will be wonderful to have a fast way to set out the tiles, and my student will love having each type of tile in a logical, consistent place."

Susan Barton, Developer  
Barton Reading & Spelling System

## Features

Stack and Go consists of several 2" x 5" metal plates attached to baseboards. Barton tiles, which have been magnetized, are placed on the metal plates in groups that follow

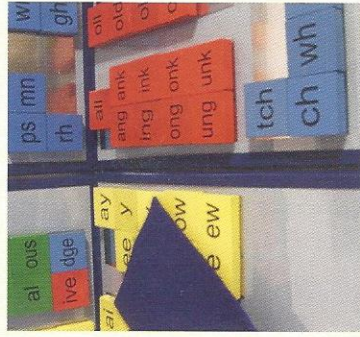

the Barton lesson sequence. Felt pieces hide tiles that have not been taught. In limited tutoring space, two of the boards can lean against a wall or be clipped to the optional easel. The baseboards stack between two cover boards with Velcro straps to hold the tiles and baseboards in place during travel. The entire Stack and Go system, which measures 11" x 14" x 3", will slip inside many briefcases, totes, and backpacks.

## Three Options

The ProKit Option includes boards and a full set of magnetized tiles for either Levels 2-8 or Levels 9-10. The ProKit 9-10 also includes root cards printed on magnetized sheets.

The Modular Boards Only Option allows individual boards to be purchased as needed and comes with magnetic strips to apply to the tiles you already own.

The Optional Easel is priced separately. It holds the 6-8 and 9-10 boards upright on a sturdy table.

## Order Form

Name: \_\_\_\_\_  
 Organizational: \_\_\_\_\_  
 Address: \_\_\_\_\_  
(we cannot ship to P.O. boxes)  
 City, State, Zip: \_\_\_\_\_
